	The cost implies: the work of rangers and people skilled for organising such activities with schools, a educational travel to the Mercantour National Park (tuition of staff) to go further into the subject, a bus for schools how couldn't afford the transports's costs.	
9 EVALUATION of this action	Very effective, first because of schools satisfaction, and then for the great involvement of the Park. The presence of rangers is really precious because they bring trully the Park to the schools. Teachers' work has been very interesting, as they have done the work during a whole year, and acquired new skills and methods of work. they have learnt to introduce the Park into their pedogical programm.
