

A wide-angle photograph of a mountain valley. In the background, several jagged mountain peaks are covered in snow, rising above a clear blue sky. The middle ground shows steep, rocky slopes with patches of green vegetation and dense evergreen forests. The foreground is filled with low-lying, colorful shrubs in shades of red, orange, and green. The overall scene is a majestic natural landscape.

# Nature Conservation and landscape protection

Marbach 17<sup>th</sup> March 2011

# **Three Working fields for objective 1**

1.1 Biodiversity Conservation

1.2 Ecological Network

1.3 Landscape conservation

# **1.1 “Landscape protection”**

1.1.1 General Conservation of Biodiversity

1.1.2 Management of species

1.1.3 Habitat conservation

1.1.4 Water and wetlands protections

1.1.5 Forest Protection

1.1.6 Dry grasslands

1.1.7 Natural processes

## **1.2 “Ecological Network”**

1.2.1 Connectivity within the PA

1.2.2 Connectivity outside of the PA

## 1.3 “Landscape Conservation”

1.3.1 Local identification with the landscape

1.3.2 Conservation of cultural landscapes and its typical components

# 1.1.1

OBJECTIVE	OUTCOME	
	Expected	Indicator
1.1.1 General conservation of biodiversity	Protection of 99% of the biodiversity within 10 years	1. Pool of representative habitats and species which can be measured (number of species and surface of habitats) 2. Loss of species/populations
	Improvement of the biodiversity	1. Successful conservation and restoration of habitats
	Excluding invasive species	1. Absence of invasive species in selected habitats
	Response of climate change	1. Altitudinal migration of species
