## What did we discuss?

- We discussed the chapters about management and monitoring/research (ch. 4 + 5)
- We had time to discuss the sections 4.1 and 4.2 as well as 5-1 and 5.2
- We modified a few objectives and defined a lot of indicators.

## Conclusions

- It takes a lot of time to discuss these indicators.
- You must always keep in mind who is going to use this and therefore ask yourself constantly: Is this useful to a PA manager? Will you make her/ him happy with this?
- You must try to think „out-of-the-box“
- The instrument might still be too complex. It could be good to reduce the number of objectives.
- The instrument should be tested in a/ several PA.
- The group thinks that the catalogue could be a very useful tool for PA managers.
- What are the next steps?
